

REMARKS/ARGUMENTS

In response to the Examiner's Office Action of February 5, 2008 issued in relation to the present Patent Application, the Applicants submit the accompanying Terminal Disclaimer, Amendments to the specification and claims, and the below Remarks.

Claims 1 to 14 are presented for examination. Claim 1 is an independent claim.

Regarding Amendments

The specification has been amended to correct typographical errors.

Claims 1-14 have been amended to more clearly define the invention.

It is respectfully submitted that the Amendments do not add any new matter to the present application.

Regarding 35 USC 112 Claim Rejections

Claims 1-14 are rejected under 35 USC 112, first paragraph, for failing to comply with the written description requirement. The Examiner asserts that the original specification fails to teach "*wherein said display is adapted to display said modified image*".

Claim 1 has been amended to define "*a display for displaying the digital image after manipulation by the programming language interpreter*". Paragraph [0351] of Publication 2005/0122399 reads "*The color display 5 is a full motion image display which operates as a viewfinder, as a verification of the image to be printed, and as a user interface display.*" (emphasis added)

It is submitted that the quoted passage would convey to one skilled in the relevant art, at the time the application was filed, that the same image as is printed by the printer would be displayed by the display. As the printer is printing the captured image after that image was manipulated, the display would display that same manipulated image.

Regarding Double Patenting Rejection

With respect to the Examiner's non-statutory obviousness-type double patenting rejection of claims 1-14 over claims 1-14 of US Patent No. 6,750,944, the Applicants submit herewith a Terminal Disclaimer in compliance with 37 C.F.R. 1.321(c), the present application and US Patent No. 6,750,944 being commonly owned.

CONCLUSION

It is respectfully submitted that all of the Examiner's rejections have been traversed. Accordingly, it is submitted that the present application is in condition for allowance and reconsideration of the present application is respectfully requested.

Very respectfully,
